

NOTE FROM THE CLERKS OFFICE

It has been brought to my attention that some political parties are mailing out absentee ballot applications for the November election.

Permanent Absentee Voters: If you have already received and returned your dual application (was mailed out prior, for the August and November election) requesting a ballot for the November election, you don't need to send in an application for an absentee ballot again. Ballots will automatically be mailed to those who have already returned the signed applications, when they are available to mail. Permanent Absentee Voters who did not return the previous dual application can request an application at the township.

Any registered voter can request an absentee ballot. You can even request one online at: mvic.sos.state.mi.us
